Beaksy - Boost

Beaksy Boost hand-feeding formula is a nutrient-dense blend tailored to meet the advanced growth needs of high energy requiring baby birds. Ease of mixing and appealing taste makes feeding effortless. A perfect solution for pet owners, bird enthusiasts and breeders seeking a reliable everyday care.

SPECIES

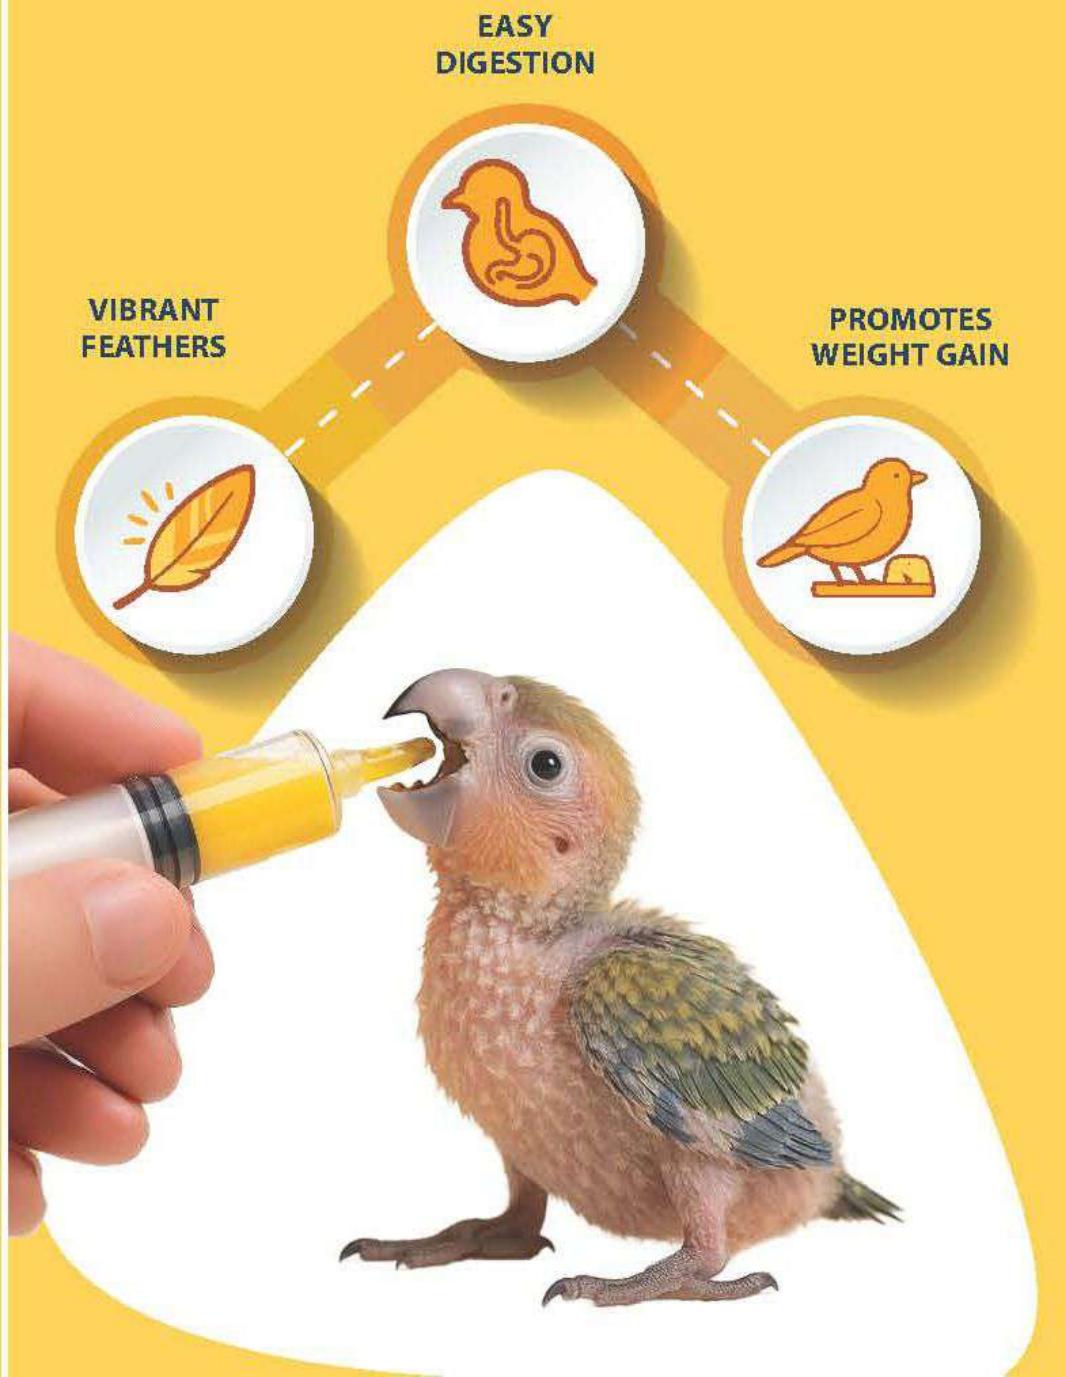

Macaws, African grey parrots, large conures, and other similar species.

Preparation Steps

- Mix 1 part Beaksy hand feeding formula with 3 to 5 parts clean, lukewarm water (40°C–42°C).
- Adjust the dilution depending on the age and species of the chick.
- Stir well until the mixture becomes a uniform, lump-free slurry.
- Allow the mixture to cool to a safe feeding temperature (37°C–39°C).
- Always prepare a fresh batch for each feeding session.

Do Not Store Or Use The Feed Again After Mixing With Water. Use It Fresh Each Time To Keep It Safe And Clean.
